Liberty Capital Ventures (LCV) is a lead investor in early-stage companies based upon profound intellectual property. Two Managing Partners who drove FA Technology Ventures' (FATV) success across two portfolios are being joined by a third Managing Partner, a successful entrepreneur and CEO, to form LCV. FATV's two portfolios delivered strong returns, backed important and enduring companies and had a high degree of differentiation from other venture funds. LCV will follow FATV's proven investment strategy. www.LibertyCapitalVentures.com
